GREENHOUSE
SCHOOL WEBSITES
WE LOVE SCHOOL WEBSITES

GET MORE
FROM YOUR SCHOOL WEBSITE

Bespoke design

We'll listen to your requirements carefully and produce a beautiful draft design for your feedback. We'll add the initial content, and provide training and support so you can quickly & easily keep your website up to date.

OR

Pre-designed template

Not every school has the budget for a bespoke website. We offer a range of pre-designed templates which can be customised with your school logo and colours.

"Just thought I'd take the opportunity to thank you for our brilliant website. Office staff can't get over how easy it is to upload documents and I've found it very easy to edit. I love the overall look and feel of it."

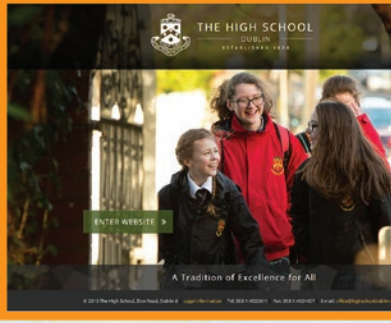
TRANSFORM
YOUR SCHOOL WEBSITE

Beautiful Design

Impress parents, staff and Ofsted with a fresh, easy to use design which showcases the unique features of your school.

Unrivalled Support

Unlimited support by email or phone. And we mean real support by UK based individuals with no ticketing systems. We are here to help ensure your website is an ongoing success.



Update content with ease

Our Content Management System has been designed specifically for schools, and continually developed with feedback from schools. It's packed with features to help you manage your website with ease.

Unlimited pages & menus

Our content editor allows you to create unlimited pages and unlimited menus. You can easily change menus, pages, and upload thousands of documents, photos and videos.

Scheduled Publishing

With scheduled publishing, you can add a document on a Friday and specify that it starts appearing on the site the following Monday at 8am, for example, and then stops displaying a week later.

Photo Galleries

Parents love to watch photo galleries. Batch upload photos in one go and sit back and watch the slideshow or view thumbnails and jump around.

Version Control

Don't you wish everything you did had a rewind button? Well, we can't help with your Friday night out, but you can change anything on your website and not worry about messing things up. So experiment!

News & Calendar

Add a diary date or news item and watch it display across the site automatically. You can also add multiple diary dates in one go and choose to display dates as a list or in month, week or day layout.

Document Auto-Lists

Tired of adding newsletters or letters home to your website one by one? No more. Upload documents to a folder and our Autolist feature will automatically list them on a page.

Password Protected Areas

You can password protect individual pages, or create areas which require a log in e.g. for parents, staff or Governors.

You can read more about our features at **www.greenhouseschoolwebsites.co.uk/features**

GO MOBILE

SMARTER, FRIENDLIER WEBSITES

Smartphone friendly websites.

Whilst you can quite happily view our school websites on any device, we can also create a tailored experience for those visitors who are using a handheld device such as a phone.

A mobile friendly website is perfect for busy parents using their phones on the move. It allows easier to read larger text, and a layout optimised for smaller screens with a special mobile menu.

Mobile applications.

Featuring push notifications, our mobile apps integrate seamlessly with your website.

Your app is free for parents to download from your very own entry in the app store. It allows parents to view news & events, latest photo galleries, read newsletters, and catch up on letters home - all without having to load up your website.

FEEDBACK

WHAT SCHOOLS ARE SAYING

Pilgrim's Way Primary School

"I wanted to write about the amazing service that you guys have given to us from the start of the whole project. I really have appreciated the first class service and speed of response I've received from all involved. I have recommended you to a few people, who have been seriously impressed with the sites."

King Edward's Consortium

"We are extremely pleased with the website's design and reliability. Technical support from Greenhouse is very helpful and clear. They are quick to respond and pay significant attention to detail."

Epping Primary School

"Can I just say this is the fourth CMS I have used, and is by far the easiest, thank you!"
